EXPERIENCE

The Word — *Lead iOS Developer/Designer*

Designed and implemented a mobile application to allow bars and other establishments to easily implement a reward system for patrons.

July 2018 - Present

University of Missouri — *Head Teaching Assistant*

Graded, taught, and developed curriculum for the IT program specifically focusing on programming paradigms and mobile application development courses. Also managed other TAs working on the same classes.

January 2018 - Present

C.O.D.E. — *Leader/Project Manager*

An organization focused on teaching software development skills not learned in early level classes at the university.

September - December 2017

Camp Emeth — *Lead Camp Counselor*

Organized activities and managed campers as well as supporting counselors on a daily basis over an 8 week summer camp program.

May 2015 - August 2017

EDUCATION

University of Missouri, Columbia — *BS Information Technology*

January 2017 - May 2020

PROJECTS

Waddl — *waddl.info*

An iOS application built from the ground up by two people with no prior experience in two months and published to the app store. The app allows users to discover new restaurants as well as save which they like and dislike for future reference.

February 2017 - Present
